NUMBER 46

PROMINENT WOMAN

Mrs. Will Ed. Jones Dies in Lexington Hospital.

Was One of This County's Most Prominent Women.

At the Good Samaritan Hospital in Lexington last Wednesday morning, Mrs. Will Ed. Jones died as the result of an operation for gall stones. The remains were brought to this city Wednesday night and taken to her home near Ewington, where the funeral services were held Friday afternoon, conducted by Rev. H. D. Clark, with burial in the family burying ground.

Mrs. Jones was the wife of Mr. Will Ed Jones, who preceded her to the grave a number of years ago. She was an excellent woman, possessing a loving Christian character and sweet disposition. Mrs. Jones was 60 years of age and all during her life by her many charitable deeds had made numerous loving friends who will be deeply grieved to learn of her departure to a better world.

Deceased is survived by two sons, Richard and Will Ed Jones, and two daughters, Mrs. Charles W. Anderson and Miss Emily Jones, who have the sympathy of a large number of friends in the loss of their devoted mother.

To Deliver Commencement Address.

President F. W. Hinitt, of Central University, Danville, Ky., in the following letter accepts an invitation to deliver the Commencement Address of the Mt. Sterling High School:

"May 14, 1912.
"Supt. W. O. Hopper,
"Mt. Sterling, Ky.
"My dear Supt. Hopper:—
"I acknowledge with pleasure your invitation to deliver the Commencement Address for your High School on June 5th, and accept the invitation. I remember a very pleasant visit to Mt. Sterling some years ago on such an occasion, I shall be glad to be of service to you.
"Cordially yours,
"F. W. HINITT."

COMPTON- EVANS

Dr. C. W. Compton Weds Prominent Ohio Girl.

Wedding Was Quite a Surprise to His Many Friends.

Dr. C. W. Compton, one of the leading dentists of this city, surprised his many friends Friday afternoon by leaving on the afternoon train for Hillsboro, Ohio, accompanied by Mr. Clark Patterson, where he was united in marriage Saturday morning to Miss Nancy St. Clair Evans.

Dr. Compton has made his home in this city for about three years, during which time, by his genial disposition and courteous treatment to all, has made countless friends. He is a young man with splendid habits, is attentive to business and possesses the complete confidence and esteem of all our citizens.

His bride is said to be an attractive, accomplished and lovable woman who will be heartily welcomed to our city.

After a short bridal trip the couple will return to this city to reside.

May their married life be a long, happy and prosperous one, is the sincere wish of the many friends of Dr. Compton.

Monument Falls on Boy Painfully Bruising Him.

While leaning against a monument in Machpelah Cemetery Sunday, Jas. K. Shropshire, Jr., the bright little five-year-old son of Mr. and Mrs. J. K. Shropshire, of this city, narrowly escaped serious injury. The monument, weighing about 300 pounds, toppled over and pinned the boy to the ground, completely covering him from view. His grandfather, Dr. J. A. Shirley, and several others, who heard the cries of the boy's younger brother, who was with him at the time, ran to his rescue. In a few minutes he regained consciousness and upon examination it was found that no bones had been broken. He is now able to go about and aside from a few bruises is unharmed.

FISH CLUB ORGANIZES

The Montgomery Fish Club Organized Saturday Afternoon.

Judge French Elected President, Mr. J. C. Cooper Sec'y-Treas.

About 120 of the most prominent citizens in this city and county met at the courthouse Saturday afternoon and organized The Montgomery Fish Club. The purpose of this club is to protect the ponds and streams in this county and to assist in every way possible in enforcing the laws relative to seining, dynamiting, and other unlawful ways of catching fish.

The meeting was called to order by Hon. H. R. Prewitt, who in a brief talk, told what the club was being organized for and urged the farmers of this county to co-operate with the city in enforcing the fishing laws. Judge H. R. French and J. Clay Cooper were unanimously elected President and Secretary-Treasurer, respectfully.

The club offered a reward of \$25 for the arrest and conviction of each person proven guilty of dynamiting the Rayborn pond last week.

The following were elected the Board of Directors: Messrs. H. C. Howell, J. C. Cooper, C. H. Petry, P. R. Cockrell, James W. Anderson, A. R. Turley, W. A. Samuels, Mart Wells, William Scobee, John W. Lockridge and Judge B. F. Day.

The President appointed C. H. Petry, R. G. Kern and E. W. Senff to draft a set of by-laws and report at next meeting. This committee is to also select a vice-president from each precinct in the county outside of the city.

The President was requested by the members to write the new State Game Warden (which will be appointed before the next meeting) asking him to be present at the meeting so that the members of this club can better co-operate with him in the enforcement of the fishing laws.

The next meeting of the club will be held at the courthouse, Saturday, June 22.

The organization of this club was made possible through the personal efforts of Mr. J. Clay Cooper and Mayor W. A. Samuels who have worked unceasingly in securing members. A club like this has been badly needed here for a long time and if the good people of this county will co-operate with them much good will be accomplished and it will only be a few years until the streams of this county will again abound with the finny tribe in abundance.

Mrs. Elizabeth Judge Marries Cincinnati Man.

Mrs. Elizabeth Judge, widow of the late James Judge, and a daughter of Mr. Frank Gibbons, of this city, was married in Covington Wednesday, May 15, to Mr. A. J. Lamen, of Cincinnati. The couple returned to Lockland, O., where Mrs. Judge had been visiting, and where they will remain for several weeks and then go to Cincinnati, where they will make their future home. Mrs. Judge has many friends in this city who will be interested to learn of her marriage.

ENJOYABLE OUTING

Large Crowd Guest of Mr. G. L. Kirkpatrick.

Spend Pleasant Day at His Camp On Slate Creek.

Wednesday morning the Mayor, members of the City Council and the stockholders and officers of the Mt. Sterling Water, Light & Ice Co., accompanied by a number of friends, motored to Howard's Mill to inspect the grounds where the new filter system is to be located. After reaching Moward's Mill, Mr. G. L. Kirkpatrick invited the crowd to his camp, "Slate View," for dinner and needless to say all accepted. The ride to the camp in the motor boats was enjoyed by everyone and the crowd, which numbered about twenty-five, certainly did justice to the delightful dinner. The few hours spent at the camp were very pleasant and each man hoped that he would again be so fortunate as to again be the guest of the genial host.

The managers of the Water Co. informed the Council that work on the filter system would be started just as soon as possible and would be rushed to completion.

Long Distance Walker.

Mr. Theodore Andrews arrived in this city Sunday on his way from Gloster, Va., from which point he started walking 26 days ago on his way to St. Louis, Mo., a distance of 1,235 miles. He has 52 days in which to walk the entire distance in order to win a prize of \$250. He has already covered 735 miles of his journey in the 26 days out and it seems certain that with no misfortunes he will win the \$250.

Reward For Dynamiters.

\$25.00 reward for each and every arrest and conviction for dynamiting Raborn's pond Friday or Saturday night.

MASONIC CONCLAVE

About Fifty Sir Knights and Their Ladies Will Attend.

Much Interest Being Manifested By Local Masons.

Montgomery Commandery No. 5, Knights Templar, will leave Tuesday afternoon, May 28th, for Paris to attend the Annual Conclave of the Grand Commandery of Kentucky, which meets in the Bourbon capital May 28th, 29th and 30th. During their stay in Paris they will make headquarters at the Bourbon College. Saxton & Trost's famous orchestra, of Lexington, composed of 18 pieces, will come to this city Tuesday and give a concert in the court house yard about 1 p. m. and then accompany the local Commandery to Paris.

A great deal of enthusiasm is being shown by the members and all are looking forward to an enjoyable time.

Remains Will be Brought Here.

The remains of Mrs. Bettie Howard, who died in Paris about two months ago, will be brought to this city Thursday on the noon train and laid to rest in Machpelah Cemetery. She formerly lived in this city and had many friends here. Short services will be conducted at the grave by Rev. Thompson, of the Episcopal Church. She was a mother of H. Clay Howard, Minister to Peru, and well known to many of our citizens.

Ladies, see our \$1.98 Oxfords, regular \$2.50 values, big assortment to select from. Punch & Graves.

Mr. Arnold Hart to Wed Prominent Fleming County Girl.

Mr. Arnold Hart, son of the late Hon. Rolla K. Hart, of Flemingsburg, will be married June 5th to Miss Leila Hearst, of the same town. Mr. Hart is well known in Mt. Sterling, where he has often visited and has a host of friends who will be interested to learn of his approaching wedding. His bride is said to be a charming and attractive girl.

Kentucky Crop Outlook.

The State Department of Agriculture in its crop report issued recently does not take an encouraging view of the outlook in Kentucky.

The flood district in Western Kentucky brought down the general average of all crops more or less, as many fields of wheat and oats were reported as being entirely ruined as the result of flood conditions. There has been little corn planted, and on May 1 the reports from the department correspondents indicated that only a little more than 50 per cent. of the plowing had been done, regardless of the fact that much of this work was done last fall. More than 7 per cent. of the wheat acreage has been abandoned, leaving 83.8 per cent. of an average crop in acreage, the condition of which is estimated at 75 per cent. The indicated acreage of dark tobacco is 98.2 per cent., and the Burley acreage is 96 per cent. The condition of tobacco beds in the dark district is given as 93.6 per cent., and of the beds for Burley tobacco 92.7 per cent. Fruits seem to be in fair condition though "practically all fruit is killed in some parts of the State." The condition of the strawberry crop is 90.3 per cent., which is decidedly gratifying news to the lovers of that luscious fruit.

A rather unusual situation is reported from some of the tobacco-growing districts where for the first time in many years farmers setting out tobacco before corn is planted. Ordinarily the reverse condition prevails, but corn planting has been delayed this year by the heavy and frequent rains which have made the soil too wet for preparing corn ground. In the meantime the tobacco plants have made such progress as to demand the farmers' attention and as frequent "seasons" are not lacking tobacco is going into the ground at a rapid rate.

There is generally more or less solicitude among farmers at this season of the year over the outcome of agricultural operations. Probably a month hence the present discouraging situation will have been forgotten and in due season the harvest will be abundant—as it has been heretofore under similar conditions.—Courier-Journal.

TRUTHFUL REPORTS

Mt. Sterling Reads Them With Uncommon Interest.

A Mt. Sterling citizen tells her experience in the following statement. No better evidence than this can be had. The truthful reports of friends and neighbors is the best proof in the world. Read and be convinced.

Mrs. Mary F. Henson, 21 Strothers street, Mt. Sterling, Ky., says: "Doan's Kidney Pills are indeed all that one could want for kidney complaint. What I said in 1908 in their praise still holds good. Had I not taken Doan's Kidney Pills, I believe that I would not be alive today. My health was very poor and the doctor said I had diabetes. I doctored but in vain. My whole system became affected and I was almost helpless. I had nervous spells, headaches and sight was poor. I often became dizzy and had to catch a hold of something for support. For several months my body was so badly swollen that I could not bend. I finally read of Doan's Kidney Pills and deciding to try them, I got a box at Duereson's Drug Store. The relief they brought me was almost instant and continued using them until I was well."

GUN FOR SALE.

Flies.

The first flies are the most important ones to kill. A fly examined at the State Experiment Station at Storrs, Connecticut, was found to have 6,600,000 germs on it, and it's a poor excuse for a fly that can't support a million germs. A fly can lay 120 eggs in fourteen hours and be bright and cheerful and ready to go back to her duties the next day. One fly may have several million descendants in a season; 98 per cent. of the eggs are laid in stables, and 2 per cent. in garbage and other filth. The fly is supposed to kill between 40,000 to 50,000 persons in the United States every year. It never comes out of a cesspool without putting its hands behind its ears. Every time it falls into a pitcher of milk it leaves a trail of a thousand germs. One dead fly in May is worth a peek in September. Talk over the subject with your family physician, if he is awake; otherwise with a member of the local board of health; then do your part. A poison harmless to human life is made by placing in shallow dishes a solution of two ounces of water, a little sugar, and one dram of bichromate of potash.

THE WORD HELL.

A Little Book That Contains Some Startling Information.

A little book selling at only ten cents, postpaid, is having a very wide circulation—running up into the millions. It contains some very startling information respecting the meaning of the word Hell. It claims to demonstrate, both from the Hebrew and the Greek of our Bible, that Hell is NOT a place of eternal torment, but merely another name for the TOMB, the GRAVE, the STATE OF DEATH. It affects to show that man was not redeemed from a far-off place of eternal torture, but quotes the Scriptures proving that he was REDEEMED from the GRAVE at the cost of his Redeemer's LIFE and that the Scriptural Hope, both for the Church and the World, is a resurrection hope based upon the death and resurrection of Jesus. The book is certainly worth the reading. The information it furnishes is certainly valuable, far beyond its trifling cost. Order it at once from the Bible and Tract Society, 17 Hicks street, Brooklyn, N. Y.

Conqueror as Critic.

Napoleon Bonaparte practiced criticism, among other modes of expression, and some of his thoughts have been published in France. He was an admirer of tragedy, although verses are, he said, "only the embroidery of the dramatic stuff." As statesman he naturally emphasized the moral value.

High tragedy is the school of great men. It is the duty of sovereigns to encourage it and to diffuse it. It is not necessary to be a poet to judge it; it suffices to know men and things, to have elevation, and to be a statesman. France owes to Corneille a part of its good actions. If he were living I should make a prince of him.

Making a prince of a great tragedian sounds silly enough to us, but Napoleon's estimate of the public value of noble art in keeping alive high standards is in line with the opinion of philosophic statesmen of all ages.

SOME SPOONERISMS OF NOTE

Really Remarkable Slips of the Tongue That Have Added to the Gaiety of Nations.

A "Spoonerism" is the name given in England to one of those involuntary inversions of words that occasionally enliven conversation. As for instance, when the returned traveler tells of "rambling up the scalps" while in Switzerland and one knows that he means "rambling up the Alps," but has simply perpetrated a Spoonerism," so called after a canon of New College, Oxford, who achieved a long and exhilarating list of these slips.

Some of the more famous "Spoonerisms" are recorded in the form of a narrative of a returning vicar who, on reaching the station left his "rags and a bug" with a porter while he went to the refreshment room for "a bath of milk and a glass gun."

During the course of an address on "Kindness to Animals" the lecturer remarked that "in Piedmont, where the sheep are so cherished, a flock would willingly follow a showing leopard."

HER LESSON IN ARITHMETIC

Small Girl Had Done All She Could to Remedy Mother's Deficiencies.

Martha heard someone speak of her mother's deficiencies in arithmetic—which are perfectly visible to the naked eye—so she came and sat down beside her gravely and began: "Mother, take four from fourteen and how much does that leave?"

"Ten," proclaimed the parent, thinking she was teaching the little one her lesson.

"Now, three from eight—that's rather hard, you know."

"Yes, it's frequently gotten on my nerves, too—but it eventually leaves five."

"And four from five."

"One," exclaimed her elder from the proud pinnacle of perfect knowledge, thinking also what a nice teacher she was.

Martha rose with a sigh of relief from the region of her pinafore, and said kindly, but with some condescension, "Well, now you have learned that much, anyway."—Lippincott's.

CANAL ZONE POLICE.

They have different looking policemen on the American side of the zone line; tall, bronzed, former troopers of the United States cavalry, in the smart khaki uniform of the zone police. These are the men who have made brigandage a lost art on the isthmus, and have taught the Panamanians to vote with ballots instead of machetes and Mauser rifles. Two hundred of this efficient little military constabulary, much resembling the Canadian northwest mounted police, keep the 400 square miles of the canal zone as peaceful as a New England village Sunday morning, and anyone who mistakes it for a lawless frontier community is likely to find himself making roads with the rest of the chain gang.—St. Nicholas.

CATS MUST WEAR COLLARS.

Not long ago Munich decided to impose a tax on cats, and now the Swiss capital of Berne is thinking of doing the same thing. "Far too many pussies!" is the cry; and it is high time that every cat, as in Munich, should wear a collar, showing to whom she belongs, or be taken up as having no visible means of subsistence, as a rogue and vagabond, and put out of existence. It is complained that in Berne and the surrounding district there is an altogether immoderate number of cats, and that they wage incessant war on the none too numerous wild singing birds, which are much prized in Switzerland.

RARE JEWEL

"As others have said before me," said Dobbleigh, "consistency is a jewel."

"I have reason to doubt the truth of that ancient saw," observed Sinnickus.

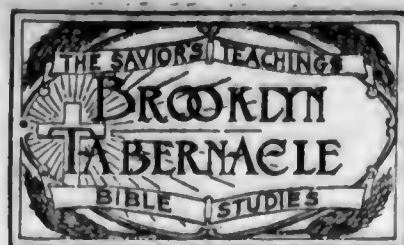

"And what is that reason?" asked Dobbleigh.

"Women are fond of jewels," said Sinnickus.—Harper's Weekly.

A SWEEPING STATEMENT.

"How clear the horizon is!" remarked a young woman.

"Yes," agreed her humorous companion; "I've just swept it with my eye."—Answers.

TRUTHFUL WORDS—POLITE SPEECH.

Matthew v. 33-37; James iii. 1-12; v. 12, May 26.

"Putting away falsehood, speak every man truth with his neighbor, for we are members one of another."—Ephesians iv. 25.

In today's study we note the contrast between Christ's teachings and those of the religionists of His day. Others attempted to limit the habit of swearing, but the Great Teacher said, "Swear not at all." How foolish is swearing of every kind! We are not, of course, objecting to solemn affirmation or legal swearing as required by law. Note the injunction of the Master, "Let your speech be yea, yea, nay, nay"—anything further implies evil. The Master's meaning evidently is, When you say yes, let it be yes; when you say no, let it be no! Tell the truth! Your friends and neighbors by and by will learn how to value your speech.

In the second portion of our study Saint James exhorts, "Be not many teachers, my brethren, knowing that we shall receive severer testing. For in many things we offend all. If any man offend not in word, the same is a perfect man, and able also to bridle the whole body." Saint James seems to say that, while all Christians need to bridle their tongues, those in the more *The Bible isn't true—we are higher critics.* exalted positions are all the more liable to error in this respect. They have a special gift of speech and another special gift of opportunity to use this speech, and so, exerting a wide influence, their responsibility evidently is proportionate.

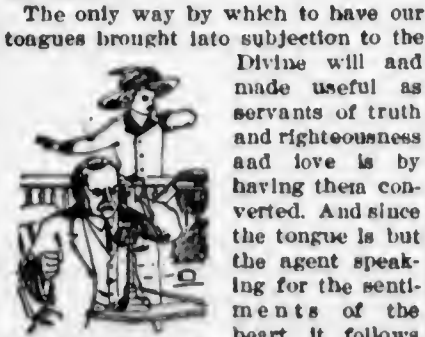

It is not for us to judge ministers or others; there is One that judgeth: the Lord. We greatly fear, however, that many ministers, as well as Christians in humbler stations, fail to fully appreciate their responsibilities for every word they utter or have the opportunity of uttering. Many tell us that for years they preached what they did not believe. How terrible! How stultifying to their manhood! How serious a reflection upon their brand of Christianity!

A Little Match Starts a Big Fire. Saint James gives some forceful illustrations. Christians should put a bridle of restraint into their own mouths even as they put them into the mouths of their horses. Not all of us have such wide opportunities for good or evil, but in our homes, in our offices, shops, markets, we may send forth either good or evil influences, far reaching for either happiness or misery, either upbuilding or down tearing character, either of helpfulness or of discouragement. Surely no Christian could be indifferent to this his most powerful member. Saint James suggests that as a match will kindle a great fire so the tongue might start a great quarrel, a great commotion, and do much injury. He suggests boasting as being one of the most dangerous uses of the tongue. Our experience corroborates this. Boasting often leads us into error and fastens us there because we are not humble enough to acknowledge the fault. It often leads into untruth from which we may have difficulty in escaping. It is an evidence of pride and therefore un-Christianlike, improper. Aargy words, bitter words, sarcastic words, taunting words, may set ablaze the course of a whole life and impel it with angry force toward the Second Death, Gehenna. Hence Saint James suggests that such evil breeding words are like sparks from Gehenna, tending toward destruction.

The only way by which to have our tongues brought into subjection to the Divine will and made useful as servants of truth and righteousness and love is by having them converted. And since the tongue is but the agent speaking for the sentiments of the heart, it follows that it is the heart that needs to be converted. The power of true conversion, true transformation of character, so that "all things become new," is of God.

The child of God, begotten of the Holy Spirit, has an assistance in the mastering and taming of his tongue that the unregenerate have not. How important then the message, "My son, give Me thine heart." Out of the heart are the issues of life.

Praising God—Injuring Men. We may know that God will reject the prayers and worship coming from a heart full of bitterness, anger, malice, hatred, envy, strife, and manifesting itself in acrimonious speech. It was Carlyle who described sarcasm as being "the natural language of the Devil." It was Faber who wrote, "No one was ever corrected by sarcasm; crushed, perhaps, if the sarcasm was clever enough, but drawn nearer to God, never." Robertson wrote: "Love is the remedy for slander." Surely the Golden Rule needs to be applied to our speech as well as to our actions.

ADVERTISING.

All modern business successes are built on advertising. The difference between Marshall Field and the other men who began to keep store in Chicago at the same time he did is that he was an advertiser and they never discovered the possibilities.

We are not Chicago, but we have goods to sell in Mt. Sterling and there are people here who would buy.

The disposition of the ordinary merchant is to treat advertising as an expense made necessary by his rival's indulgence in it. Such men have never discovered the outer edge of the advertising world, and will go down to forgotten graves.

It is such men who will neglect to advertise when the coast is clear, and either raise sand with the papers or make foolish advertising spurts, whenever a stranger comes in and sells a great lot of stuff on his advertising ability alone.

The merchants of this town are facing the possibilities of a city in the near future. Advertising is what has built up our town. The growth of the town means much to every merchant in it.

The local man often thinks that advertising does not pay; perhaps it does not pay him—as he does it—but for every home man who refuses to advertise, a paper could always, if it were not so patriotic, secure enough foreign advertising in that one line to pay ten times over, and at city rates, too.

If you have anything to sell and want business you have got to let the people know it, and tell it to them strong, or give up the job to some man who knows how to push it.

ANNOUNCEMENT

FOR CONGRESS

We are authorized to announce

HON. W. J. FIELDS

of Olive Hill, Carter county, as a candidate for Congress in the Ninth District, subject to the action of the Democratic primary on Saturday, August 3rd, 1912.

THE LORIMER CASE.

We who have always been taught to uphold and advocate respect for constituted authorities, cannot help from having a feeling of disgust when we read the majority report of the committee hearing the Lorimer charges in the U. S. Senate, whose members choose to refer to it as the "greatest deliberative body in the world." If there is a tainted seat in the Senate it is that occupied by William Lorimer. President Taft's clandestine support of him caused Mr. Roosevelt to sweep Illinois, and we earnestly hope the Senate will sustain the minority report and oust him from office.

That part of the majority report dealing with the question of corruption, which everybody knows is about as hypocritical a document as has been made public in a long time, is as follows:

"It is charged that Senator Lorimer was elected corruptly. This is the issue. Is this charge true or is it false? If true, he should be denied a seat in this body; if not true, we should so declare.

"We have heard the evidence under oath; we have seen the witnesses as they testified; they have been fully cross-examined; their evidence has been carefully weighed; every suggestion of possible proof has been followed and nothing has been left undone to ascertain the truth of the charges against Mr. Lorimer.

"There is absolutely no evidence in all the testimony submitted intimating, suggesting or charging that William Lorimer was personally guilty of any corrupt practices in securing his election, or that he has any knowledge of any such corrupt practices or that he authorized anyone to employ corrupt practices in his election.

"We are convinced that no vote was secured for him by bribery; that whatever money White, Beckmeyer, Link, Holstlaw or any other persons received was not paid to him or them by anyone on Mr. Lorimer's behalf or in consideration of or to secure such vote or votes for him; that neither Edward Hines or anyone else raised or contributed to a fund to be used to secure his election; that his election was the logical result of existing political conditions in the State of Illinois and was free from any corrupt practices, and therefore we must find and we do find that William Lorimer's election was not brought about or influenced by corrupt methods and practices."

MR. E. B. HAGER.

Elsewhere in this issue, we publish by authority, notice of the candidacy of Hon. Edgar B. Hager, of Ashland, for delegate from this the Ninth Congressional District to the Baltimore Convention.

He is a loyal Democrat, a gifted lawyer and a worthy gentleman. For him to be favorably remembered, we need only to remind our readers of the fact that it was he who delivered, in this city, the last Elks' Memorial Address.

We are very glad to see the Lexington Herald making an effort to awaken the public to a realization of the injury that is being done to our turnpikes by heavily loaded wagons with narrow tires. We feel sure no one wants to injure the turnpikes unnecessarily and when the subject is better understood, only wide tires will be used. They are easier on the team and much less injurious to the highway.

Democrats, attend the County Convention next Saturday afternoon at 2 o'clock!

C. B. PATTERSON, Cashier

To the Democrats of Montgomery County.

I am a candidate for Delegate from the Ninth Congressional District, to the Democratic Convention at Baltimore.

I favor Champ Clark for the Democratic Nomination for President, and heartily favor and earnestly urge the instruction of the Delegates from the various counties of the Ninth District as well as the entire State for Clark.

I am in favor of Ollie James for Temporary Chairman of the State Convention and I give my unstinted support to this brave and loyal Democrat in the fight he is making for the right.

This is a time when the people themselves should express their preference and no Democrat should be led away from this plain duty by the specious pleas of designing politicians who seek their own advancement at the expense of the true interests of the Democratic party.

I respectfully solicit the support of the Democrats of Montgomery county.

WEALTH ALSO MEANS WORRY

Very Rich Seem to Have Their Own Troubles, From Which the Poor Are Happily Freed.

There appears to be almost as much worry and gloom among rich Americans this year as there was three or four winters ago. During that period the friends of an exceedingly wealthy man, noting that he appeared to be suffering from extreme mental depression, asked the reason, and he replied: "No wonder I am feeling blue. I have \$1,200,000 in cash lying in bank, on which I can't get more than four per cent. interest."

A sufficient cause for worry, no doubt. Yet there are other rich persons in equal distress. One of these, the wife of a prominent official of the government, is said to be greatly worried over her jewels. She has more of such articles, it is stated, than she can look after, the result being that she has had to employ help to care for them. Accordingly she has instituted a card catalogue system, which gives a record and description of every piece of jewelry she owns, together with notes showing its need of repairs or cleaning. Yet even this help probably cannot relieve the grinding worry that comes from the sense of possession.

RECREANT LOVER

Edith—Do you remember when I rejected Mr. King about a month ago? And he said he certainly would pine away and die, and I would be his murderess?

Mabel—Yes.

Edith—Well, I just met him on the street walking with another girl and I actually believe the fellow has gained 20 pounds.

STRANGE WORK OF NATURE.

One of the strangest sights in nature is the petrified forest at Albany, in Australia. In that strange wood, the trees and their branches are of a gray stone. It is suggested as an explanation of the strange phenomenon that in the depths of past ages the forest was in full vegetation, and then through some upheaval of the earth it was buried in sand. Little by little water acting on the sand penetrated the branches and solidified. The wood gradually disappeared under the layer of stone, and in time took its form. Then in succeeding years the winds again carried away the sand, and the forest appeared anew, but of stone.

LONELY LIGHTHOUSE.

The most northern lighthouse in Great Britain, the northwest tower on the coast of Shetland, is one of the most interesting of latter-day sea marks. It is built on a rock 200 feet high, the summit of which barely affords room for the necessary buildings. The rock itself has the appearance of a gigantic iceberg, perched on its narrow summit, appears more like an ordinary white hat on a giant's head than anything else. Yet the tower is no less than 50 feet high, and costs over \$150,000 to erect.

DON'T BE A FOOD CRANK.

Because you believe in rational diet it is not necessary for you to be a crank. Don't be always pawing over your food and thinking how it will work after it gets into your stomach. That leads to chronic dyspepsia—and possibly insanity. What would you think of the captain of a big Atlantic liner if he should spend most of his time sorting over the coal, and examining every lump? Fix upon a rational mode of diet, and then "forget it."

COMMENCEMENT EXERCISES

Of M. S. C. I. Will be Held Wednesday, May 29th.

The commencement exercises of Mt. Sterling Collegiate Institute will be held on Wednesday May 29. There are six graduates, four bright and sweet young girls, Misses Allee Young, Emma D. Hamilton, Sylvia Pettit and Lura Sweetman, and two young men, Messrs. Mitchell Sullivan and Walter Rudder.

The valedictory of the class resulted in a tie between Misses Hamilton and Sweetman, while the salutatory was won by Mr. Mitchell Sullivan.

The address to the graduates on commencement day will be delivered by Rev. B. C. Horton, pastor of the Methodist church, speaking on the theme of "You Are For Sale—What's the Price?" The remaining part of the program will be. Valedictory thesis, Miss Emma D. Hamilton, subject, "How Hard it is to Hide the Spark of Nature;" Miss Lura Sweetman, "Time Wasted is Existence; Used, is Life." Salutatory oration, Mr. Mitchell Sullivan, subject, "The Rising World of Water, Dark and Deep."

Special music will be rendered for the exercises and diplomas and medals will be awarded. The public is cordially invited to attend all the exercises, including the Baccalaureate sermon to the graduating class to be delivered Sunday evening, May 26, by Rev. EVERY MINUTE 21 PERSONS ARE INJURED.

IN the United States there are annually an average of 97,000 violent deaths.

THERE are five times as many persons killed and injured each year as die from natural causes.

THERE are more people burned to death each year than are killed on railroads.

EIGHT out of every 100,000 population are drowned annually.

STREET cars kill 3 1/2 out of every 1,000.

ONLY one in 200,000 are killed by automobiles. This is not one-half of the number killed by sunstroke, or one-fourth killed by poisons, or one-fifth killed by horses and carriages.

MORE people are kept from work by accidental injury than are idle from lack of employment.

SERUM

To Prevent Typhoid Found by Russian Savant.

"It is true we have discovered a method of vaccinating against typhoid, which has given most satisfactory results," said Prof. Metchnikoff, the famous head of the Pasteur Institute, to the correspondent, says a Paris cable to the New York World.

The announcement of this important discovery was first made by Metchnikoff in a communication to the Academy of Science. Afterward the correspondent visited him in his laboratory at the Pasteur Institute and asked for details.

"The method is simple, requiring but little time," said the professor. For troops in the field and for all others who are unable to take the ordinary precautions against typhoid, this method, which has been scientifically demonstrated, should be of excellent service. It will not do to speak of it as something revolutionary, however, as it is not a cure for typhoid, but a preventive of the disease, which is already preventable by following well known rules regarding the boiling of water, etc. But vaccination will render immune those who are placed in infected regions where they cannot follow hygienic rules."

Prof. Metchnikoff described the results of his long experiments in these words:

"Its value has been scientifically proved." But with wise reticence he refused to claim for his discovery anything very new.

The English bacteriologist, Wright; the French savant, Prof. Vincent, and others have introduced more or less successful anti-typhoid serums. All these vaccines have been prepared from bacilli no longer alive, having been generally killed by heat. Prof. Metchnikoff sought to prepare vaccine from living bacilli placed in specially prepared water made sensitive or impregnated with a substance found in the serum of animals that had been made immune. For this purpose the horse was chosen. The virus thus acquired was first used on chimpanzees as being most like men.

Then the dangerous experiment was tried on human beings. Two men connected with the Pasteur Institute volunteered and 500,000 typhoid bacilli were introduced into the organism of each. Little reaction resulting, ten days later they were inoculated with nearly three times as many microbes and again no ill effects were observed. Tests showed they had become immune even to the virulent Eberth bacilli, as they are called. Since then forty-four other persons have been subjected to the serum, all with success.

Several European armies use a serum against typhoid enteric, dysentery and other diseases that in time past have ravaged the armies of the world. In the American army inoculation against typhoid is compulsory, a preparation discovered by Surgeon General George H. Torney, of the

United States Army, being used. Its efficacy has been demonstrated by a table of figures collected by Lieut. Col. J. R. Kean, of the Medical Corps, which shows the 12,000 troops stationed at San Antonio, Tex., last year, had but one case of typhoid fever and no death, whereas in 1898 the 10,000 men of the Second division of the Seventh Army Corps, stationed at Jacksonville, Fla., had 1729 cases of typhoid and 248 deaths, the two encampments being in the same latitude the same length of time and under identical conditions.

The British army during the Boer War inoculated thousands of soldiers, with good results.

The Spanish and German armies also use serums.

FRECKLE-FACE

New Remedy That Removes Freckles or Costs Nothing.

Here's a chance for Miss Freckle-Face to try a new remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion, the expense is trifling.

Simply get an ounce of othine—double strength, from Wm. S. Lloyd and one night's treatment will show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask Wm. S. Lloyd for the double strength othine, as this is the only prescription sold under guarantee of money back if it fails to remove freckles. 40-c

Educational Progress.

"Never have the people shown more clearly their interest and faith in education and in schools of all kinds and grades." This is one of many encouraging statements to be found in the annual report of the United States Commissioner of Education.

Reference is made by the commissioner to some salient facts set forth by Dr. Fletcher B. Dresslar, of the Federal Bureau of Education, in an article reviewing the educational progress of the country in the decade from 1900 to 1910. It is cited that the average length of the public school term increased more than 8 per cent.; that the average number of days attended by each pupil increased more than 13 per cent.; that the number of teachers increased nearly 20 per cent.; that the average monthly salary for male teachers increased about 35 per cent. and for female teachers about 25 per cent.; that the value of all school property increased more than 75 per cent. and the income of public schools more than 83 per cent.; that the number of children in public kindergartens increased more than 40 per cent., the number of public high schools more than 70 per cent. and the number of high school pupils more than 76 per cent. The appropriation of public funds for normal schools increased 140 per cent. The number of students in professional courses in public normal schools increased 68 per cent. The productive endowments of universities, colleges and schools of technology increased 65 per cent. The incomes of such institutions, exclusive of endowments, increased 173 per cent., the professors and instructors increased 61 per cent. and the number of students 67 per cent.

Within the decade the percentage of illiteracy decreased from 10.7 per cent. to 7.7 per cent.; for native whites from 4.6 per cent. to 3 per cent.; for negroes from 44.5 to 30.5 per cent.

Such advancement, of course, is gratifying, but it merely emphasizes the need for continued effort. The campaign for education has only fairly begun. The awakening of public sentiment is not complete, and it will not be until the spirit of improvement shall penetrate to the most humble schoolhouses in the most remote corners of the most backward Commonwealths.—Courier-Journal.

Farmers.

Speaking of Lawyers and how they are overrepresented in our public life, we recently made the point that farmers were under-represented. Unfortunately, in speaking of the wealth of the farmers, we gave the figures for the North Atlantic division of the United States instead of for the United States as a whole. The number of farmers who live on farms owned by themselves is approximately 4,000,000, and of these more than 2,600,000 own their farms free of debt. A shrewd old lawyer once advised a younger one: "Never get into an argument with a fellow who pronounces words just like they are spelled." He had learned, what a great many others are now slowly learning, that a man who gets his information by a coal-oil lamp and does his thinking over the plow and workbench is apt to develop mental grip and punch. These self-educated thinkers may lack superficial smoothness and fluency of speech, but they have a way of seeing the main thing. If there are still any who imagine a few centers have a monopoly on the brain supply, they need only take a trip and do some honest listening. In every hamlet and little town they will find these original thinkers, quiet, hard-working, law-abiding, who read their two or three papers through every week and digest all they read; who read surprisingly good books; know something of the rocks and soil and stars; often study out inventions in their minds; develop theories of government; ponder long and deeply on religious subjects. These men, and there is a surprisingly large number of them, go about their work, a part of the great industrial machine. For a long time it was supposed by aristocratic gentlemen that they never thought at all except of their tools, or felt anything but hunger. Among the other surprises and shocks of the day is the dawning realization that these self-educated, silent thinkers, scattered by the thousands all over the country, are able not only to separate the chaff from the wheat but to run the whole thrashing machine.—Collier's.

W. S. LLOYD'S SUCCESS

Great Popularity of Plan to Sell Medicine at Half-Price and Guarantee a Cure.

W. S. Lloyd, the enterprising druggist, rather than await the ordinary methods of introduction, urged the Dr. Howard Co. to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half-price. In addition to selling a 50c bottle of Dr. Howard's specific for 25c W. S. Lloyd has so much faith in the Remedy that he will refund the money to anyone whom it does not cure.

When your head aches your stomach does not digest food easily and naturally when there is constipation, speaks before the eyes, tired feeling giddiness, bad taste in the mouth, coated tongue heart burn, sour stomach, roaring or ringing in the ears, melancholy and liver troubles Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

This latest achievement of science is of great value in curing sick headache. Thousands of women are today free from that painful disease solely through the use of this specific. 44-46

PART IN NATURE'S SCHEME

Snake Really Is a Most Useful Creature, Though Never Likely to Be Popular.

What is the use of snakes? In their "going on their belly," the circumstance that so often offended Bacon, lies one of their greatest uses, because that, together with their internal formation and external covering, enables them to penetrate where no larger carnivorous animal could venture, into dark and noisome morasses, bog jungles, swamps amid the tangled vegetation of the tropics, where swarms of the lesser reptiles, on which so many of them feed, would outbalance the harmony of nature.

Wondrously and exquisitely constructed for their habitat, they are able to exist where the higher animals could not; and while they help to clear those inaccessible places of the lesser vermin, they themselves supply food for a number of the smaller mammals, which, with many carnivorous birds, devour vast numbers of young snakes.

The hedgehog, weasel, ichneumon, rat, peccary, badger, goat, hog, and an immense number of birds keep snakes within due limits, while the latter perform their part among the grain devouring and herbivorous lesser creatures.—Harper's Weekly.

MONEY AND CHURCHES.

The amount of money spent upon their churches is always some gauge of a people's devotion. People do not spend great sums of money on their churches, and rob themselves of the luxuries and even the necessities of life, unless they believe in their religion and the things for which it stands. In every Russian village the church is the great building of the region. With its golden domes and its curious double crosses, it towers above all the homes and stores and factories. The village may consist of squalid huts, but the church is often stately, or, if more humble, is embellished with gold and silver ornaments and icons framed in jewels, while the priests are gorgeous in cloth of gold and rich embroidery.—Dr. Francis E. Clark, in Christian Churches.

THE HIGH BROW.

The slang ban on "highbrow" is hereby raised. No longer will it be left to languish in the lower limbo of language. It is a perfectly good and expressive word. It graphically denotes that amusing class in the community who are not content to be merely and modestly intellectual, but who in addition make a great parade of their intellectuality, who must be imposing, patronizing and pompous. The Highbrow is the professional intellectual.

SAVED WHEN HOPE WAS LOST

Woman Little Likely Ever to Forget Her Terrible Experience in Shipwreck.

A woman recently had a remarkable, almost miraculous escape from death in a shipwreck. The wrecked ship was the Norwegian steamer Vivienne, whose passengers and crew—with the exception of one of the ship's boys, who was drowned—were landed at Cardiff, Wales, by the steamer Glenelg, which had been in collision with the Vivienne off the Lizard. As the vessel sank, Mrs. Jorgensen, a passenger, in her night attire, was on the top of the wheel house, and, believing hope was at an end, had raised her hands in prayer, when a rope flung from the Glenelg fell into them. A moment later the water rose to her waist, but clutching the rope tightly she felt herself being drawn up the sides of the Glenelg. Suddenly the rope stopped and for five terrible minutes she swung over the water, but eventually was safely drawn on board. The Chinese composing the Glenelg's crew had been too weak to pull her aboard.

HAVE TO FOLLOW WEBSTER

Whether We Like It or Not, All Must Spell as Dictionary Author Decreed.

Thomas M. Honan, attorney general, who has given more attention to studying law than to studying spelling, finds solace for misspelled words in a saying of an old-time newspaper man at Seymour, Honan's old home, whose copy the composers had to watch carefully for bad spelling.

"One day two young women went to his office to write a letter," Honan said. "They borrowed the old man's paper, his pen and ink, and asked him to let them sit at his desk while they wrote the letter. The old man accommodated them, and while they were writing, he busied himself looking over the newspaper files, not in the best of humor because he had been disturbed.

"Please, Mr. Blank, how do you spell autoeratic?" asked one of the girls.

"Spell it any way you darn please," he replied. "Do like Noah Webster. He never asked anybody how to spell a word, and we have to like the way he spelled 'em."—Indianapolis News.

At Kauchino, near Moscow, there is established the most complete laboratory now in existence for the prosecution of researches pertaining to aviation. This institution has become the center of much interest within the last year or two. Here investigations are made of all questions relating to aerodynamics, and some remarkable results have been obtained, especially in regard to what is called the "autorotation" of bodies of certain shapes when placed in currents of air. It has already been made evident that there are many phenomena of an unexpected character which, when they have been thoroughly investigated, may materially aid inventors and engineers in the construction of improved flying machines.—Harper's Weekly.

CONDUCTING A COLLECTION.

The Rev. Allen Fort, pastor of the Baptist tabernacle in Chattanooga, asked J. B. Capeheart, a railroad conductor, to take up the collection one day. It was Mr. Capeheart's first experience as a taker of collections in church.

He started down the center aisle. There were several children in the first pew and each put in a penny. The people in the next pew also contributed something each. A big, glum fellow sat alone in the third pew. Capeheart passed him the plate. The man shook his head and stuck his hands deep in his pocket.

Capeheart stopped, put up his hand as if to jerk the bell cord and said: "Well, you'll have to get off."—Saturday Evening Post.

Sealed Proposals for Brick Street Construction.

In accordance with an ordinance adopted by the City Council of the city of Mt. Sterling, Ky., on the 16th day of April, 1912, and on the 7th day of May, 1912, sealed proposals will be received for the paving of the following streets, to-wit:

Bank street, from the south line of West Main street to the Chesapeake & Ohio Railway.

West Locust street, from the east line of Bank street to the east line of South Sycamore street.

Said streets will be paved with vitrified block on a concrete foundation with concrete curb and gutter, according to the plans and specifications now on file in the office of the City Clerk.

Each bid must be sealed and marked "Bid for Street Paving," and addressed to the City Clerk, Mt. Sterling, Ky. Each bid must be accompanied with a certified check on a National Bank for five hundred dollars. Said bids will be opened in the presence of the Board of City Council of Mt. Sterling, Ky., on the 5th day of June, 1912, at the hour of 7:45 o'clock.

The territory to be paved comprises about 4,700 square yards.

The right is reserved to reject any and all bids.

W. A. SAMUELS, Mayor,
C. B. PATTERSON, Treas.,
H. M. RINGO, City Clerk.

Streams and Ponds

Stocked With Fish.

Through the efforts of Mr. J. Clay Cooper and others the Government last week shipped four hundred thousand fish to Mt. Sterling and many ponds and streams were stocked. Mr. Cooper says that many more fish will be secured later on and that if given the proper protection it will be an easy matter to secure as many fish as needed to stock all the streams and ponds in the county.

Republicans Lose

Louisiana Franchise.

As a party the Republican party no longer exists in Louisiana. Its franchise was lost when the official returns of the April elections were rend in the joint session of the General Assembly and the result formally promulgated. Only 4,961 votes were cast for the Republican candidates, and as this is less than the 10 per cent. required by State law, the organization no longer exists.

The only way the names of the nominees can be placed on the ticket in the future is by petition, as has been the case with independent candidates. The forfeit of the franchise also prevents the party from availing itself of the provisions of the State primary law.

Old Resident Dies in Lexington.

At an asylum in Lexington, last week, Mr. W. H. Waller, of this city, died, aged 87 years. He had been a resident of this city for over 50 years and had many friends here. Several years ago he was severely injured in a gas explosion which deranged his mind. Mrs. Waller was at once notified of her husband's death and left for Lexington where the funeral took place Thursday. Besides his wife, he is survived by one son, Frank E. Waller, of Lexington. To the bereaved wife and son we extend deepest sympathy.

"I shall be glad indeed if you will publish this table in the next issue of your paper, with the statement that I will furnish application blanks to all old soldiers who are entitled to the benefits of this law, if they will write me for same, and will be glad to look after their claims before the Pension Bureau. I am asking all the papers of my district to do this, as I feel that it is the best way possible to get in communication with the old soldiers, who will be interested in this law.

"Thanking you in advance for the favor, I remain

"Yours very truly,

"W. J. FIELDS."

Pond Dynamited.

A pond belonging to Mr. Tom Raborn, on the Kiddville pike, was dynamited last Friday night by unknown persons and thousands of fish were killed. The Montgomery County Fish Club, recently organized, has put men to work on the case and should the guilty party or parties be caught they will be prosecuted. It is hoped that every good citizen will assist the club in enforcing the laws and in a few years we will have some of the finest fish ponds and streams in the State.
